THE SECOND VOLUME

It is, as its name indicates, independent on all subjects, (not neutral.) and in all respects up with the times. Established in 1860, it has passed through the severe pressure occasioned by the unparalleled drouth of that year, has just completed its first volume, and offers new and attractive inducements to renewal and new subscribers. The prospect for a prosperous future i or Kansas is so favorable as to induce the belief that almost everybody in Jefferson County can subscribe and pay for at least one copy of the only paper published at their County-seat. Let every man interest himself in extending the circulation of the Independent, first by subscribing yourself, and then by asking your neighbors to subscribe. AYER'S Ague Cure,

Intermittent Fever, or Fever and Ague Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in bilinry derangement, caused by the Malaria of miasmatic countries. No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will cradicate the disease, and with assurance, founded on proof, that are harm can arise from its use in any quan-

That which protects from or prevents this disorder must be of immense service in the better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the missinglic poison of Fever and Ague from the system and prevents the develop-ment of the disease, if taken on the first apment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Ferral AND Agure prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quimine or mineral, consequently it produces no quimism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

This "Cuar" expels the poison from the blood, and consequently cures them all slike It is an invaluable protection to immigrarts and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the in-fection, that will be excreted from the system, to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords. and cannot accumulate in sufficient quantity
